Report Nanking Has Fallen Into Hands Of Cantonese

LONDON, March 17.— General Pi has seized control of the Kiangnan docks in the native city of Shanghai where a number of American vessels are under re-construction, according to a Shanghai dispatch to the Daily Express. The dispatch states that General Pi has declared the seizure of the docks necessary because of urgently needed repairs to northern warships.

Give "California Fig Syrup" if cross, bilious or

No matter what ails your child, a gentle, thorough laxative should always be the first treatment

given. If your little one is out-of-sorts, half-sick, isn't resting, eating and acting naturally -look, Mother; see if tongue is coated. This is a sure sign that the little stomach, liver and bowels are clogged with waste. When cross, irritable, feverish, stomach sour, breath bad or has stomach-ache, diarrhea, sore throat, full of cold, give a teaspoonful of "California Fig Syrup," and in a few hours all the consti pated poison, undigested food and sour bile gently moves out of the little bowels without griping, and you have a well, playful child

Mothers can rest easy after giving this harmless, "fruity laxative" because it never fails to cleanse the little one's liver and bowels and sweeten the stomach, and hey dearly love its pleasant aste. Full directions for babies, children of all ages and for grown

#### HELP FROM THE SKY

Silverton, Colo., had been snow-bound for four weeks. No visitors and no mail had come into the town from the outside world in all that time.

On March 8, a big Douglas plane from the obestvation squadron of the Colorado National Guard flew over the mountains and brought letters, newspapers and medical supplies to Silvetten. Watching citizens cheered and the city's siren shrieked an official thank-you. The airplane could not land because the snow was too deep on the only big level space, the town's baseball diamond, so it dropped its precious cargo into a snow bank and disappearet.

The flight was undertaken, according to the Adjutant General at Denver, not only to carry aid to Silverton, but for experimental purposes as well, so that in formation might be obtained for future air expeditions under similar conditions.

So common nowadays is the sight of an airplane rushing across the sky that many of us do not even glance up. The Silverton incident emphasizes the fact that there are times and places where the airplane is still a miracle-worker.

#### SENATE RULE BATTLE LOOMS

Formal moves to bring about anti-filibuster changes in the rules of the United States senate will be made at the first session of the Seventieth congress. Senator William Cabell Bruce Democrat, of Maryland, will take the initiative in that direction. He is full sympathy with the "Dawes plan" to curb unlimited debate and prevent minority rule.

It was Senator Bruce's intention to propose sweeping reforms in senate procedure during the recent short session of congress. But the legis ative jam induced him to postpone action until next winter. Senator Bruce feels hat the delay is fortuitous, because like Vice President Dawes, he believes that the late spectacle which the senate made of itself immensely increases the possibility of per suading it to mend

President Coolidge may not be deciding to spend the summer "out where the west begins," but it is agreed that it is one of the shrewdest moves he's made since entering the

The "Coolidge Boycott" of the corn and wheat belts has been found a matter of general comment. The comment has been critical in character, and often bitter. It emanated from some of the president's vermest supporters.

Senator Capper expresses the liveliest gratilication that Prsident Coolidge has at length determined to follow Horace Greelev's advice and "go west." He predicts that the brushing shoulders "with the folks out there" will be good for them for the whole west, for the country at large and preeminently for Mr. Coolidge himself.

"Uncle Tom's Cabin," seen, possibly, by 50,000,000 persons since it became a favorite melodrama in the backwoods three generations ago, is now reaching out for a world audience. #### Amy Crocker Pays Hubby No. 5 Cut-Rate Wage, Awaiting No. 6

Heiress of the Crocker millions, Amy Crocker Ashe Gillig Mitzinoff Galitzin, and Prince Galitzin, her latest husband. who contests her effort to divorce him.

What price princes for American Quotations on the Paris bourse are in the rouble class. Motormen get higher wages than Prince Galitzine, but he is going to make a fight to keep his \$200 a month, and, incidentally, his wife, Aimee, formerly Amy Crocker Ashe Gillig Gouraud Miskinoff Galitzine.

She is fifty-six years old plus and he is twenty-seven, and she is paying him the \$200 a month. She is preparing to get a divorce on the ground that even on his luncheon allowance he has managed to afford to be a bad husband-Husband No. 5, to be exact, of the heiress of the

Le Journel, a Paris newspaper, declares that the Prince has retained counsel there and notified his American Princess that he will not let her have a divorce. Her lawyer, Frederic Allain, declares there is nothing in the story of a contest, but he admitted that Prince Galitzine had denied all of the charges made against

In this connection it also became known that Princess Galitzine is paying her husband the \$200 a month cision in the divorce.

WEDDED BLISS SHORT.

They were married in Paris in September, 1925, but separated within a few months, and have lived apart since then. Her previous husbands were Porter Ashe, Harry Gillig, Jackson Gouraud and Prince Miskinoff.

Husbands have not stayed busbands with her as long as the tattooing on her arm. She is not only getting ready to drop No. 5, but in New York clubs they will lay you-if you happen to be a Knickerbocker or otherwise among the elect, with club privileges-8 to 5 that Aimee has already plotted out a sixth wedding and has an option on her prospec-

Her father, Judge Edwin Bryant Crocker, of Sacramento, Cal, who made his many millions in the "days of old, the days of gold, the days of '49" and following, left half his Midas hoard to his daughter.

Her youthful career kept San Francisco society from taking itself too seriously and gave it no shock when she married R. Porter Ashe, December 16, 1882. He was a picturesque, high-class sporting man of his day in California and a nephew of Admiral Farragut. He and Harry Gillig, one of the first of the famous 'men about town," were pals. Both were in love with the frolicsome Crocker heiress, and a story was widely told that the rivals, warm

When Aimee divorced Ashe, seven

years later, she was married to Gillig and they removed to New York with Alma Ashe, daughter of Aimee's first marriage. Her mother changed the child's name to Gladys Crocker, and some years later Powers Gouraud, brother of the next of the Aimee hus-Gladys. Of course, that made her sister-in-law of her mother and stepdaughter of her brother-in-law, but

body seemed to worry ever it. Jack Gouraud, the third hus band, died and his widow began to build up a family by adoption. She adopted three children and named them: Reginald, Yvonne and Dolores. Then she took "Prince" Alexandre Miskinoff, age twenty-six, for her fourth husband. She was past forty

Prince Miskinoff was accused by his wife of having wooed and won her divorced Miskinoff and he promptly married Yvonne. But Yvonne soon divorced her ex-stepfather, and was reconciled to her mother by adoption,

By this time America failed to adequately feed the temperament of Aimee, and she moved to Paris and took on some permanent companions, judgment proof, a snake tattooed on one of her legs; a butterfly, symbol of the soul, on her back, and others on her left arm, showing plainly close to the jeweled

bracelets on her wrists. Stories told and not denied about the time Aimee took on Prince Mistislav Alexandre Galatzine, for hus band No. 5, indicate that the bridegroom's soul was sadly torn. He wanted to be a movie shelk and the Princess (Aimee) could not see it for a minute or-more important-could not see it for just one dollar of her \$10,000,000 fortune, so far as its spending by Galatzine was concerned. He did not go to Hollywood Amy changed her name to Aimee

with her first marriage to a foreign Prince, and every time she dropped a husband she told newspaper interviewers that "Never again" was her anti-nuptial slogan for then and

thereafter. But the club scandal sharps of New York, London, Paris and points southward will bet you she is all set to revoke on that play again.

#### Loosen Up That Cold With Musterole

Have Musterole handy when a cold starts. It has all of the advantages of grandmother's mustard plaster without the burn. You feel a warm tingle as the healing ointment penetrates the pores, then a soothing, cooling sensation and quick relief.

Made of pure oil of mustard and other simple ingredients, Musterole is recommended by many nurses and doctors. Try Musterole for bronchitis, sore throat, stiff neck, pleurisy, rheumatism, lumbago, croup, asthma, neuralgia, congestion, pains and aches of the back or joints, sore muscles, sprains, bruises, chilblains, frosted feet, colds of the chest. It may prevent pneumonia and "flu."

# Free Yourself of Rupture Without Pain, Danger or Loss of Time

FOR the benefit of our readers we take pleasure in publishing the Brooks offer to save all who are ruptured from wearing painful makeshift trusses that do not hold.

The Brooks Appliance Company gladly sends their remarkable patented Appliance ON TRIAL to prove that it holds the rupture back, keeps it in place, prevents it coming down or slipping out and finally assists Nature to heal the rupture.

## Costs You Nothing to Try It-Mail Coupon Today!

Rupture exacts a heavy toll from those who wait too long. No man or woman can look or feel right while suffering the torment, pain and discomfort of rupture. Nervous disorders, and a general slowing up and weakening of that resistance needed to battle for life, result from rupture.

Every day that you suffer from rupture—every hour of torture that you endure—after you read this page is your own fault.

For many years we have been telling you that no make-shift contrivance will ever help you. We have told you even of the actual harm these things are doing. We have often repeated that the only truly comfortable—the only sanitary and really scientific device for holding rupture in place and actually assisting Nature to heal the tear is the Brooks Rupture Appliance.

Now we offer to prove it to you, entirely at our own risk. We will send you a Brooks Rupture Appliance on trial. If you really want to be rid of your rupture, fill out the coupon below and mail it today.

Instead of wearing a cruel, gouging device that irritates you constantly—a ponderous metal contraption—a harness that for all its inflexibility still never seems to stay in the right place—try the velvety soft, perfectly fitting Brooks Appliance that is made and accurately adjusted to your individual requirements.

There is nothing more perfectly made for the purpose than the Brooks Appliance. It clings to you without force. You are hardly conscious of its presence—except that it brings you comfort and ends the pain. And above all else it HOLDS always.

Within an hour after you receive your Brooks Appliance, if you take advantage of this remarkable trial offer, you will throw away forever the old contrivance you have been wearing.

#### Over 1,350,000 People Have Accepted This Offer. Why Not You?

Doesn't this prove that the Brooks Appliance is not an experiment but a positive success—that it does all we claim for it? Among these 1,350,000 men, women and children there must be hundreds whose condition was identical with yours. Can you afford not to investigate and satisfy yourself when it costs you nothing to prove what the Brooks Appliance will do for you?

This wonderful device is a positive triumph of scientific and mechanical genius, the outcome of more than 30 years' experience. The results accomplished by its use are little short of miraculous.

If we were to tell you that many former sufferers have, been able to do without any form of support after wearing the Brooks Appliance but a short time, would you not think it worth while to try its effect on yourself? That is exactly what has happened in innumerable cases. The reason for it is simple enough.

Held in this manner, without impeding normal circulation, the blood—Nature's great healing force—builds

The large picture above is H. C. Brooks, son of C. E. Brooks, whose picture is reproduced just below it. To the elder Brooks belongs the credit for inventing the appliance which for many years has been freeing thousands of sufferers from rupture.

For more than 20 years, the son has been striving to make even more perfect the rupture support originated by his father. The task which he set for himself was not an easy one. It required great patience and perseverance. After many experiments, innumerable trials and thorough tests, Mr. Brooks hit upon an idea which, although not radically changing the appliance as designed by his father, brought the invention to the stage where it is declared to be as near perfect as human ingenuity can make it.

new tissue, strengthens weakened muscles and in a perfectly normal manner brings about the complete cure you are so anxious for.

The Brooks Appliance not only retains the rupture perfectly, but its unique construction tends to bring the edges of the tear together.

Let us send you true copies of some of these letters. You may find one from a friend whose word you could not hesitate to accept:

#### Men, Women and Children Find the Brooks Rupture Appliance Equally Effective

No matter if your rupture is of long standing or only recently developed—no matter how severely you suffer or how slight the pain—young or old, you should not fail to profit by this No-Risk Trial Offer.

No other form of rupture support is offered to the public on so broad a guarantee of satisfaction. No other appliance can claim such a remarkable history of success. If, for any reason whatever, you do not wish to keep the Brooks Appliance after you try it, send it back and the trial has cost you nothing. You do not have to give any reason. There will be no argument, no dispute or misunderstanding. This liberal offer makes it perfectly clear that you alone are to be the judge.

#### Ten Reasons Why YOU Should Accept This Offer

- 1. It is absolutely the only Appliance that embodies every principle that medical science has sought for years.
- 2. Blacksmith or College Professor, regardless of your work, the Brooks Appliance holds perfectly under all conditions
- 3. Our Air Cushion clings closely to the body. There is no feeling of discomfort.
- 4. Because the Appliance is made to *your* measure, there is no unpleasant sensation of wearing a harness.
- 5. No metal springs to torture you by cutting and bruising the flesh.
- 6. No screws or wooden blocks, nothing to rust or corrode—no part to break and leave you unprotected.
- 7. The Come-a-part, our latest improvement, enables you to cleanse thoroughly with hot water and soap the only part of the Cushion that actually touches you. This can be done in less than a minute.
- 8. Your rupture is not only held perfectly but the Automatic Air Cushion draws the weakened and separated muscles together.
- 9. Improved, not impeded circulation means that more tissue building blood, Nature's great healing force, is drawn to the weakened place in the abdominal wall.
- 10. We guarantee you comfort at all times and under all conditions. The Appliance must satisfy or we do not ask you to keep it.

## **Never Sold at Stores**

Unscrupulous advertisers are endeavoring to sell the public a cheap substitute for the Brooks Appliance, claiming that it is genuine. Do not be misled by imitations and substitutions. The genuine Brooks Appliance is never sold through agents nor at stores of any kind. Every appliance is made at Marshall, Michigan, to your individual requirements. Look for trademark bearing portrait of C. E. Brooks which appears on every appliance. None other genuine.
